# STEVEN JODOÏN

Photographer, Illustrator, Web Designer and Continuous Improvement Engineer

## EXPERTISE

With over 30 years experience in Surveying, Mapping and Geomatics Industries working at the Federal Government, State Government and Municipal Government levels, Steven brings a wealth of knowledge in Information Systems design and development for efficient data production.

With a keen interest in the creative aspects of data production he has developed a small business in support of high-end Cartographic Map production and gained over 20 years experience with the full suite of Adobe Creative Cloud products.

After 15 years working with various web development technologies, in 2009 he adopted WordPress as the sole Web Development tool and enjoys assisting organisations in building better web solutions in this development environment.
